MEMORANDUM FOR: Project Director of Materiel

SUBJECT : Responsibility for Publishing Supply Lists
(FAK and SLOE)

25X1A

1. I have already advised you of [REDACTED] request that we prepare to take over responsibility for the maintenance, correction, and publication of our supply list. His suggestion is that this be done at [REDACTED] Would you let me know, if possible by 18 October, what plans you have for assuming this responsibility. I understand of course it will take several weeks and probably a conference with [REDACTED] and [REDACTED] to convert your preliminary plan into a firm arrangement.

2. I have also advised you of [REDACTED] recommendation in which I fully concur that the level of 37-engine spares maintained by each Detachment be reduced to that sufficient to maintain no more than two engines in inventory.

RICHARD M. BISSELL, JR.
Project Director

RMB:gjg (11 Oct 56)
